

Florida Pre-owned Commercial Truck Dealer Adds Hooklift Trash Trucks To Their Inventory Of Used Waste Trucks.

Prominent commercial waste industry truck dealer adds a new truck category to the line-up. Apex Equipment of West Palm Beach, Florida has added hooklift trash trucks to their inventory.

Apex Equipment, located in beautiful West Palm Beach, Florida, has added hooklift refuse trucks to their inventory of top quality, pre-owned waste and trash trucks. This decision by Apex to expand into the hooklift waste truck market, comes in an effort to supply the waste industry with the same, exceptionally high caliber, refurbished hooklift trucks, that has made Apex a national leader in the re-conditioned roll off market. Apex Equipment is known around the world as a used commercial truck dealer that delivers top of the line, reconditioned waste and refuse trucks, that are ready to work when they leave the Apex facility.

Apex Equipment will carry all Manufacture types in the hooklift trash truck category, including Mack, Volvo, Kenworth, Peterbilt, Sterling, Freightliner, International, and Western Star, just to name a few. The hooklift inventory will also include tri-axle, tandem axle, and single axle trucks, with all hoist types, including Swaploader, Galbreath, Stellar, Palfinger and more. As a bonus, Apex will also offer new, and used hooklift containers, to compliment the purchase of the hooklift trucks. Modifications to meet the needs of specific vendors will also be available, such as adding tag axles, tarp systems, company color paint matching, etc. Apex Equipment will also offer nationwide shipping, as well as global export on all hooklift trucks, and containers.

Due to the extensive 210 point inspection / repair, process every hooklift truck will be subject, the 2 year/200k mile drive-train warranty, offered in the other trash truck catalogues, will also apply to the hooklift refuse truck inventory. This warranty is good throughout the United States, and at any authorized dealer, or repair shop with a certified mechanic. As with all Apex trucks, the hooklift waste trucks will also undergo an independent Federal DOT inspection, to ensure road worthiness, and safety.

Sources at Apex Equipment say, " We have implemented the same, no shortcuts, philosophy we apply to all our inventory. Our goal is to continue to set higher standards for the used commercial truck industry, in every market we explore. We believe that getting what you pay for is essential in the growth of business, and the American economy. We not only perform an Apex 210 point inspection on every hooklift truck, but, when we find a problem, we fix it".
